

Answer Key A

This is dad because the shortest chromosomes are the sex chromosomes, the A is the X chromosome and the B is the Y chromosome. Males have XY for their sex chromosomes.

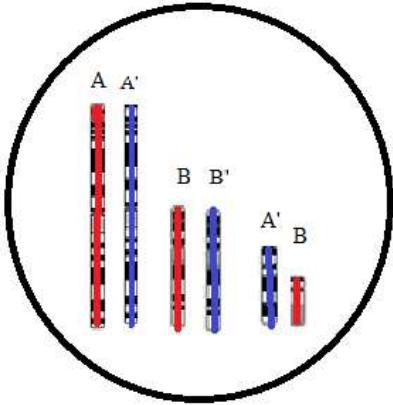

This is mom because the shortest chromosomes are the sex chromosomes, the A' is an X chromosome and the B' is also an X chromosome (both the same length). Females have XX for their sex chromosomes.

DO NOT SCROLL DOWN, UNTIL LATER...ANSWER KEY B IS BELOW!!!!

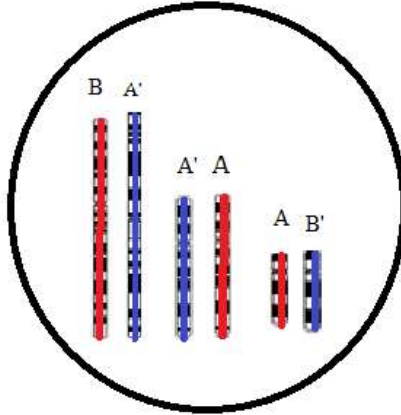

ANSWER KEY B IS BELOW...DO NOT PEEK UNTIL YOU ARE READY TO CHECK THIS PART OF THE ASSIGNMENT!!!!

Answer Key B

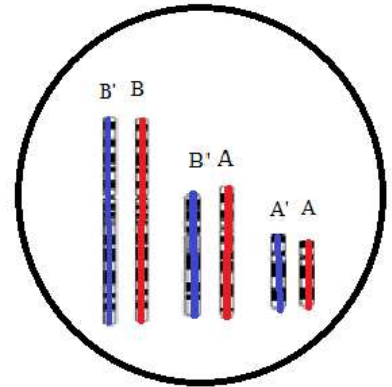

The following are viable babies, they are not limited to these examples, but here are certain criteria that make them viable.

Male Child

Female Child

Female Child

The following are **NOT** viable babies, there may be more examples, but these **do not** fit the criteria for viable babies.
